## PREFACE

Bureau of Statistics has been publishing the Monthly Survey of Industrial Production and Employment Report on a regular basis since 1976 to provide important data on employment and production concerning Large Scale Manufacturing (LSM) industries in Khyber Pakhtunkhwa.

The survey report provides data for the month of February 2014 pertaining to various categories of large scale manufacturing industries covering 78 industrial establishments. It highlights information on the General Index of Industrial Production with 2005-06 its base and provides comparison of the latest available monthly data with the previous month of the current year and the corresponding month of the last year along with year-wise and month-wise comparative data.

It is expected that the publication will best serve the diverse needs of data users and would be especially instrumental in quantitative analysis and informed decision-making.

We are extremely indebted to the managements of the industrial units, Industries Department and Directorate of Industries for supplying the required data for publication of this report well in time. The team efforts of the staff of Bureau of Statistics in producing this monthly publication are also highly appreciated.

The publication has also been made available on the official website of the Bureau of Statistics [www.kpbos.gov.pk](http://www.kpbos.gov.pk) to provide easy access to data users.

It is our endeavour to continuously refine presentation of the data. We would, as always, welcome suggestions to improve future series of the report.

## EXPLANATORY NOTE

### Introduction

The industrial sector is imperative for economic growth, employment creation, supply of basic necessities and building a competitive manufacturing economy. With its several linkages with other sectors of the economy the manufacturing sector is witnessing a gradual build up in terms of its share in GDP and value addition over the last years and its importance has increased significantly.

Reliable and current statistics are essential tools meant to facilitate the process of development especially through informed decisions in the spheres of plans and policies formulation, monitoring and evaluation and research.

The Monthly Survey of Industrial Production and Employment is a regular monthly publication of the Bureau of Statistics, Khyber Pakhtunkhwa. It was initiated in 1976 covering four industrial establishments namely Sugar, Tobacco, Cement and Paper and Paper Board. The coverage went on increasing and the current report covers 13 categories of Large Scale Manufacturing (LSM) industries.

The need for the Monthly Survey basically stemmed from the fact that the Census of Manufacturing Industries has a high time lag in availability of data. It is therefore conducted to bridge the information gap in intermittent period and to maintain a regular flow of data for routine application of data.

The Survey primarily aims at measuring the performance of industrial sector, updating existing data and providing evidence-based information on production and employment aspects of manufacturing sector to policymakers, planners and entrepreneurs and other data users for their respective uses in context of industrial development.

The report indicates information on the General Index of Industrial Production, which is a composite indicator that measures changes in the volume of production in a basket of industrial products during a given period with respect to the base year. The Index provided in this report used the Laspayer's Index.

For the purpose of this Survey Large Scale Manufacturing (LSM) is one which employs ten or more than ten workers. The employment data cover both regular and temporary workers.

### **Methodology**

The questionnaire designed by Bureau of Statistics, Khyber Pakhtunkhwa is mailed to factory managers to provide required information on monthly basis. The set of information include production, value, number of production and non-production workers and their wages and salaries.

About 50-60 questionnaires are received through postal mail, fax and email, while for non-responding industrial units information are collected through personal visits by the officers/officials of the Bureau of Statistics.

### **Scope and Coverage**

The Survey covers 16 types of Large Scale Manufacturing (LSM) industries comprising Beverages, Cement, Ceramics, Cigarettes, Cotton Textile, Electric Bulbs, Fertiliser, Matches, Paper and Paper Board, Pharmaceutical, Sugar, Vegetable Ghee and Woollen and 91 industrial units manufacturing 35 items in Khyber Pakhtunkhwa.

### **Editing**

Upon the receipt of filled questionnaires from respondents information are examined and compared with previous data for accuracy and consistency. In case there is huge variation between the current and previous data, information are verified from concerned mangers of the industrial units. Some of the information which cannot be collected due to non-response is estimated on the basis of last month averages.

**Data Entry and Final Report**

Bureau of Statistics has developed the MIS containing a module of Industrial Production and Employment. The unit-wise data for each category is entered into the system, which generates reports indicating variations in production and employment, Industrial Production Index and Relative Index. Final report is prepared with proper tabulations, graphs and analysis.

**Dissemination**

The report is disseminated to multiple data users through postal mail on monthly basis. It is also uploaded on the official web site of BOS to facilitate easy access. With an endeavour to refine future series of the report views from data users are always welcome and appreciated.
